Annexe to the study plans of the Faculty of Science and Medicine

Transitional provisions

Specialised Master of Science in Digital Neuroscience

Applicable from the academic year 2023-2024

Accepted by the Faculty of Science and Medicine on 17.04.2023

Transitional provisions 2023-2024

These transitional provisions concern students whose reference programme is in a study plan prior to 2023, namely:

- *Specialised Master of Science in Digital Neuroscience* (120 ECTS)

The following transitional provisions apply:

- Students who have already completed or have made an attempt at the Teaching Unit "Data Analytics in Python" I09.00006 (3 ECTS) remain bound by the previous study plan (2022-2023).

- Students who have not yet attempted the Teaching Unit "Data Analytics in Python" I09.00006 (3 ECTS) are bound by the new study plan (2023-2024).
